Prof. Prasenjit Das
Head of Department, CSE
Academy of Technology

Subject: Request for One-Time Exception for Cross-Section Final Year Project Group

Good Morning Sir,

I am **Monojit Goswami**, a student of **5th Semester, CSE 3**, and I would like to request your consideration regarding the formation of our final year project group.

We understand that it has been explicitly stated that project groups should not comprise students from different sections. However, we would like to request a **one-time exception** in our case.

As the final year project carries significant academic weight, we would prefer to work with teammates with whom we already have experience collaborating, rather than forming a group with students we have not previously worked with. We believe that familiarity with each other's working styles, strengths, and responsibilities would allow us to coordinate more effectively and produce a better-quality project.

The members of the group we are proposing have already worked together extensively in various technical events and hackathons. In particular, we have collaborated in **FrostHacks**, **SIH in the previous year**, and **SIH this year**, along with other college activities. Through these experiences, we have developed an established understanding of how to work together as a team and manage responsibilities during large-scale projects.

Therefore, we sincerely request you to consider making an exception in our case and allow us to form a **cross-section project group** consisting of the following members:

Name	Section	Roll No.	Phone
Monojit Goswami	CSE 3	112	9123077710
Niladri Das	CSE 3	119	7439684191
Prabrisha Das	CSE 2	096	9875364437
Kritika Dan	CSE 2	084	7001752089

We understand and respect the department's guidelines regarding group formation, and we are requesting this only as a **one-time exception** based on our prior experience working together.

We sincerely believe that allowing us to work as this team would give us a better opportunity to develop a strong project and deliver our best possible performance.

We kindly request you to consider our application and grant us permission to form the proposed cross-section group.

Thank you for your time and consideration.

Yours sincerely,
Monojit Goswami
